UNIQUE TRAVERTINE

Unique Travertine, progettualità senza confini

Unique Travertine è un inno alla matericità calcarea del travertino, una collezione suggestiva e versatile, capace di reinterpretare un materiale classico in una chiave inedita e attualissima: un progetto completo, realizzato attraverso lo studio delle diverse lavorazioni del travertino.

La gamma si compone di numerose declinazioni, dalle più naturali come Vein Cut, con le tipiche venature longitudinali del taglio nel verso della vena, Minimal, che si ispira alla lavorazione del retro del travertino, fino alle versioni più insolite come Ruled, ricca di scanalature e solchi tridimensionali e Ancient, con un sofisticato effetto anticato che ben si adatta a recuperi in stile e progetti dal sapore retrò.

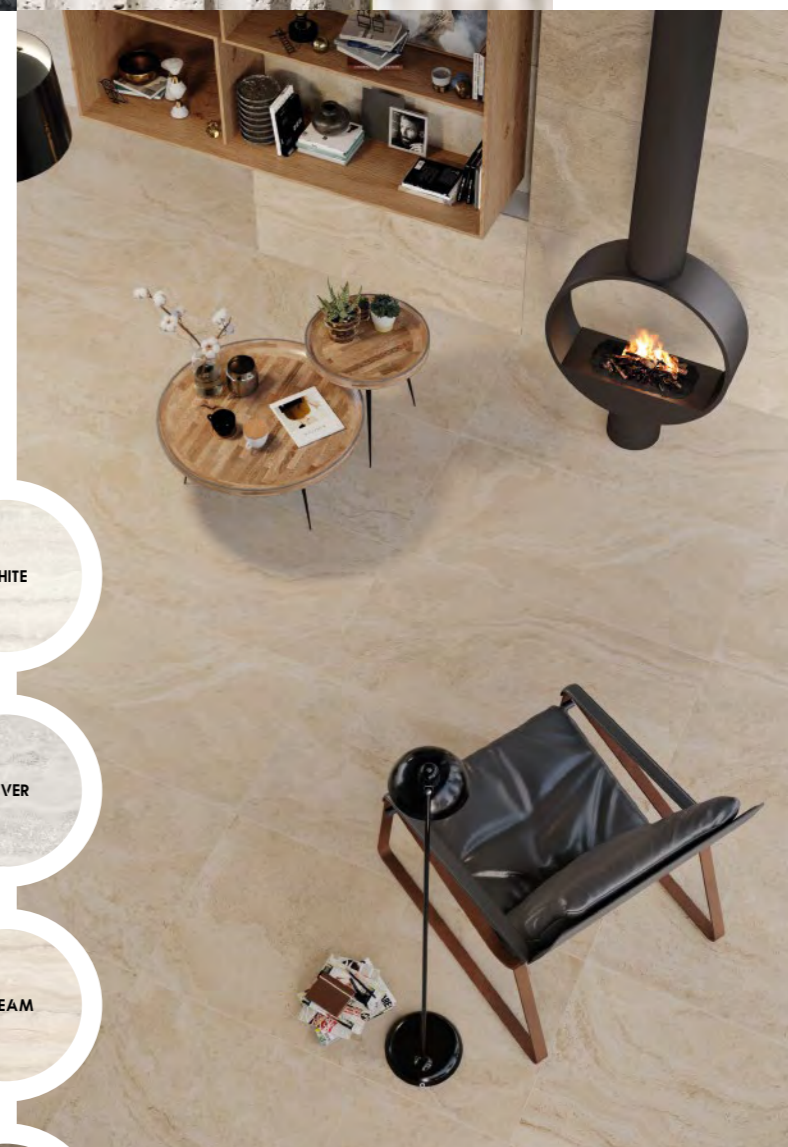

Unique Travertine è la sintesi ideale tra materia classica e progettualità contemporanea, un compendio completo e armonico di elementi capaci di interpretare, combinandosi tra loro, ambienti dal carattere definito e unico, dai più tradizionali ai più audaci e sperimentali.

Unique Travertine, boundless architectural potentials

Unique Travertine is an anthem to the tactile beauty of travertine stone. It is a lovely, versatile collection that reinterprets a classical material from a fresh, highly contemporary viewpoint: a complete project, with additional inspiration from the different ways travertine can be shaped.

The very varied range runs from the most natural options, such as Vein Cut, with the familiar lengthwise vein pattern created by cutting in the vein direction, Minimal, inspired by the way the underside of the travertine slab is shaped, through to more unusual versions, such as Ruled, with its many three-dimensional grooves and ruts, and Ancient, with a sophisticated timeworn effect ideal for period renovations and projects with a vintage mood.

Unique Travertine is the ideal blend of a classical material and contemporary architectural potential, a complete, attractive assortment of materials that can combine to create design schemes with a distinctive, unique character, from the most traditional to the most daring and experimental.

Unique Travertine, liberté totale de création

Unique Travertine est un hymne à l'effet calcaire du travertin, une collection belle et éclectique, en mesure de donner à une matière classique une interprétation originale et très actuelle : un projet complet qui se penche sur les différents façonnages du travertin.

La collection propose de nombreuses versions, des plus naturelles comme Vein Cut, où les veines longitudinales de la coupe vont dans le sens de la veine, Minimal qui s'inspire du façonnage sur la face arrière du travertin, aux versions les plus singulières comme Ruled, où fument les cannelures et les creux tridimensionnels, et Ancient, avec un sophistiqué effet vieilli qui convient très bien aux projets de récupération en style et à l'esprit rétro.

Unique Travertine est le parfait condensé entre matière classique et design contemporain, un ensemble complet et harmonieux d'éléments capables d'interpréter, en se mélangeant entre eux, des espaces au look défini et unique, des plus traditionnels aux plus audacieux et expérimentaux.

Unique Travertine, uneingeschränkter Gestaltungsfreiraum

Unique Travertine ist eine eindrucksvolle keramische Interpretation des Kalksteins Travertin. In dieser vielseitigen Kollektion wird das Materialbild eines klassischen Materials in einer ungewöhnlich aktuellen Optik umgesetzt. Ein umfassendes Konzept, das auf der Studie verschiedenen Verarbeitungstechniken von Travertin beruht.

Die Kollektion umfasst eine Reihe von Varianten – von den natürlichen wirkenden, wie Vein Cut mit den typischen Bänderungen, die durch das Zersägen mit der Äderung entstehen, Minimal, die von der rückseitigen Bearbeitung des Travertins inspiriert ist – bis zu den ungewöhnlichen Versionen wie Ruled mit einer Reliefstruktur aus Rillen und Furchen und schließlich Ancient in edler Antikoptik, die sich perfekt für stilvolle Sanierungen und Gestaltungen im Retro-Look eignet.

Unique Travertine ist die gelungene Synthese aus klassischem Material und stylischem Designkonzept. Ein harmonisches Zusammenspiel von Elementen ermöglicht überzeugende Raumkonzepte mit ausdrucksstarkem Design: ob klassisch, extravagant oder gewagt.

Unique Travertine, proyectos sin límites

Unique Travertine es una oda al material calizo del travertino, una colección sugestiva y versátil, capaz de reinterpretar una piedra clásica en una clave inédita y de lo más actual: un proyecto completo, realizado a través del estudio de las diversas elaboraciones del travertino.

La gama ofrece numerosas posibilidades, desde las más naturales —como Vein Cut, con las típicas vetas longitudinales del corte en el sentido de la veta, Minimal, que se inspira en la elaboración de la parte posterior del travertino— hasta las versiones más insólitas —como Ruled, llena de estrías y surcos tridimensionales, y Ancient, con un sofisticado efecto envejecido que resulta idóneo en rehabilitaciones de estilo y en proyectos de aire retro—.

Unique Travertine es la síntesis ideal entre materia clásica y proyección contemporánea, un compendio completo y armonioso de elementos capaces de interpretar, combinándose entre sí, ámbitos de personalidad definida y única, de los más tradicionales a los más osados y experimentales.

Unique Travertine, проектирование без границ

Unique Travertine - это гимн фактурности травертина, эффектная и практичная коллекция, позволяющая применять этот классический известковый материал в новом и актуальном ключе, результатом чего является самодостаточный проект, созданный на основе изучения различных видов обработки травертина.

Коллекция состоит из многочисленных вариантов: от самых натуральных, таких как Vein Cut с характерными продольными следами резки вдоль прожилок, Minimal, вдохновленного поверхностью тыльной части травертина, вплоть до необычных версий, таких как Ruled, которая богата рельефными бороздками, и Ancient с изысканным состаренным эффектом, который хорошо подходит для реконструкций в старинном стиле и проектов в стиле ретро.

Unique Travertine - это идеальный синтез классического материала и современного проектирования, самодостаточная и гармоничная совокупность элементов, способных сочетаться друг с другом и давать свою интерпретацию пространств с четко выраженным и уникальным характером, от наиболее традиционных до самых смелых и экспериментальных.
